

Bonjour Year 5

This week I would like you to design your own street, and label it in French.

The next slide shows you how to get started.

You need to have 2 rows of buildings facing each other, with 5 buildings on each side.

Draw and label in French what each building is, you can't use the same building twice.

Good luck.

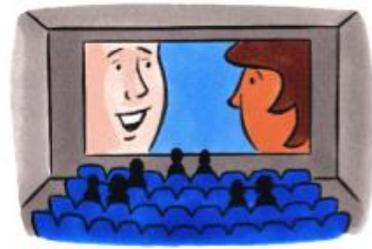

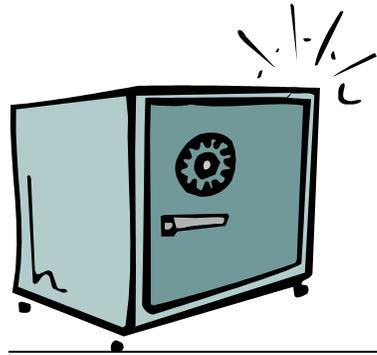

La Rue Principale

La Rue Principale

Here is my design, on the next slide are some key words to describe it in French.

Prepositions – words which tell you where something is.

devant =	in front of
derriere =	behind
a coté de =	beside
entre ... et ... =	between ... and ...
en face de =	opposite

We can use these words to describe where the places in the street are situated.

For example, in my picture on slide 3 the cinema is beside the town hall.

In French “Le cinéma est a coté de la mairie”.

On the next slide are some sentences about my picture.

These sentences are all about the picture on slide 4. For numbers 1 to 5, read the sentence, look at the picture and decide if the sentence is true or false.

For numbers 6 and 7, the missing words are prepositions.

For numbers 8 and 9, complete the sentence in French. Number 10, make up a new sentence about the picture.

True or False – Vrai ou Faux

1. Le cinéma est à côté de la banque.
2. La mairie est entre le cinéma et le marché.
3. Le café est en face de la boucherie.
4. Le marché est devant la pharmacie.
5. La banque est à côté du café.

Complete these sentences in French

6. La banque est __ _ _ _ _ la boulangerie.
7. La pharmacie est __ _ _ _ la boucherie et le marché.
8. Le café est
9. Le cinéma est en face du
10.
